WORK EXPERIENCE

Leslie Jee Textiles

Huntington Beach, CA

Designer

2016 to Present

- Demonstrate design and process improvement capabilities through aligning organizational strategies with objectives, carefully analyzing line needs, and identifying appropriate design and color trends to advance the organization's vision
- Engage in cross-functional collaboration with transdisciplinary teams to complete a dynamic range of color design projects while communicating technical specifications to third-party vendors to maintain high quality standards and brand integrity
- Provide insight and creativity by contributing to new marketing material ideas, written design inspiration, graphics, and information architecture to achieve optimal design outcomes
- Exemplify outstanding time management skills by tracking and managing workflows and workload per collection while adhering to tight deadlines and strict budget parameters
- Instrumental in improving operational efficiency by identifying and resolving complex issues with certified labs while creating tangible and practical solutions to drive results
- Manage and monitor company's WordPress website back-end including plugins, tools, and database
- Identify content needed and edit company's WordPress website to increase traffic

Integra Escrow

Remote, CA

Design & Marketing Coordinator

2012 to Present

- Illustrates necessary materials such as graphics, photographs, layouts, forms, merchandise, signage, and other visuals to achieve optimal design outcomes while maintaining brand identity
- Contribute to new marketing material ideas, social media content, and written inspiration to increase traffic
- Performs website analysis and user tests to ensure proper management of content and data systems

Chase 54

Remote, CA

Technical Designer & Production Coordinator

2016 to 2019

- Developed tech packs and communicated construction details and updates to vendor factories and overseas offices while updating tech packs as needed
- Measured product samples and updated specs with strong attention to detail while ensuring projects were completed in an accurate, efficient, and timely manner
- Played a key role in establishing quality control processes by ensuring all standard grade rules were correct while suggesting necessary changes to enhance product development
- Maintained and tracked progress of development samples while creating a streamlined database to protect data integrity

Haus of Grey

Los Alamitos, CA

Technical Designer & Product Developer

2014 to 2015

- Issued and managed all apparel purchase orders and terms while fostering positive and productive business relationships with third-party vendors and clients
- Provided strategic leadership and guidance to high-performance manufacturers to enforce adherence to global quality standards
- Negotiated costs with factories to meet gross margin targets, resulting in increased profitability and market share
- Strengthened organizational capabilities by maintaining Design/Production Calendar for the year for multiple lines
- Created new tech packs, flat sketches, grading rules, pattern corrections while providing solutions to improve existing systems and design processes
